

Heavy rainfall warnings for east coast (Yellow Level)

 **Urgency:** Expected  **Severity:** Moderate
 **Certainty:** Likely

Issued:
Mon 25 May 2026
01:17

Effective:
Sun 24 May 2026
21:00

Onset:
Sun 24 May 2026
21:00

Expires:
Mon 25 May 2026
12:00

Area:
Eastern Saint Lucia

Description:

Heavy rainfall is expected due to the passage of a low level trough system as well as an approaching tropical wave. Frequent heavy rain may result in flash flooding especially in the Dennery area and areas Nearby. Motorways will be impacted with water levels rising rapidly as well as fallen rocks affecting driving conditions. Visibility will also be affected.

Instruction:

Take the necessary measures to reduce impacts of flood damage. Remove debris from drains. Motorists in Dennery and surrounding areas are advised to be vigilant and drive with caution. Residents should avoid low lying areas. Please keep updated with messages and advisories issued by St. Lucia Meteorological Services.
